OVERVIEW

What is Peppol?

Peppol (Pan-European Public Procurement Online) is a secure, global eInvoicing network that lets businesses send and receive invoices directly between accounting and ERP systems - without PDFs, emails, or manual data entry. Dataline is your certified Peppol Access Point, managing everything on your behalf.

ABN number for business identity verification

Connection via a Certified Peppol Access Point

Registration in the Peppol global directory

Peppol-compliant format - handled by Dataline

Inbound - Supplier Invoice Processing

[INBOUND] Supplier Invoice Processing

Receive supplier invoices electronically - zero manual handling

- Eliminates manual invoice keying and data entry errors

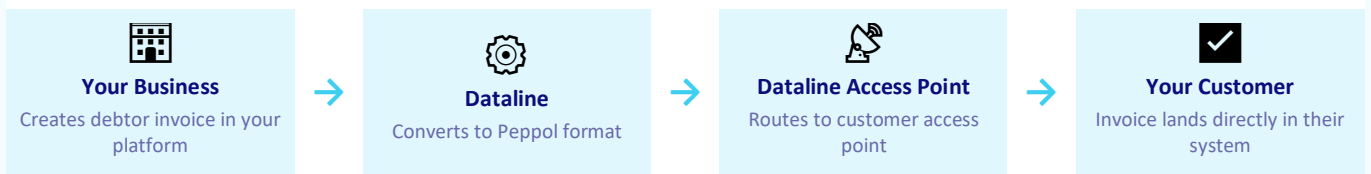

- Invoices received and processed in real time

- Feeds directly into APA+ approval workflows

Outbound - Debtor Invoice Delivery

[OUTBOUND] Debtor Invoice Delivery

Send invoices directly into your customers' accounting systems

- Faster payment cycles - invoice received instantly

- No lost invoices, no email follow-up needed

- Reduces disputes with accurate structured data

Why Choose Dataline for Peppol?

eInvoice Ready product ATO certified eInvoice ready product. Partner with certified Access Point providers to ensure invoices travel across a compliant, encrypted network, no infrastructure investment needed.	Integrated with APA+ Peppol plugs directly into Dataline's APA+ platform - straight-through processing, 2-way and 3-way matching, and automated approvals.	Fast Implementation Be live on PEPPOL in days. We handle registration, format conversion, and access point connection.
End-to-End Security All invoices travel over the encrypted PEPPOL network - no email interception risks, with full digital audit trails.	Local ANZ Experts Headquartered in Australia with 15+ years in AP automation across ANZ enterprise and mid-market.	Both Directions Covered Inbound for supplier invoices and Outbound for debtor invoices - one provider for your entire eInvoicing ecosystem.

Peppol via Dataline vs Traditional Invoicing

FEATURE	TRADITIONAL (EMAIL/PDF)	PEPPOL VIA DATALINE
Invoice Delivery	X Manual email, risk of loss	✓ Direct system-to-system
Data Entry	X Manual keying required	✓ Zero manual entry
Processing Speed	X Days or weeks	✓ Real-time
Data Accuracy	X High error rate	✓ 99.9%+ accuracy
Audit Trail	X Inconsistent / manual	✓ Full digital record
Security	X Email interception risk	✓ Encrypted PEPPOL network
